South Molton Residential Care

Eastleigh Residential Home is situated within easy reach of South Molton town centre where no expense has been spared in providing a comfortable and welcoming home. The home reaches from the heart of a sympathetic conversion of the listed Georgian property to a dual level purposely developed extension. Rooms are beautifully appointed with each room being as individual as the care we offer.

The social rooms are centrally located and provide a focus for daily activities and afford ample opportunity to meet with friends and pass the time of day. Some bedrooms have balconies, which extend the living area providing a lovely place to sit, chat with friends, or just watch the world go by. Rooms are complimented with a flat screen television, optional personal telephone and we welcome residents personalising their rooms with pictures and small adornments to help create a feeling of home.

Eastleigh South Molton is in commutable distance of junction 27 of the M5 and is conveniently located for a variety of local excursions to Exmoor and the stunning North Devon coastline. Our secure mature garden offers a perfect opportunity to sit, relax, socialise and enjoy the sunshine.

We are able to offer enhanced residential dementia care for selected residents within a dedicated suite. Our care is provided in a friendly atmosphere which is stimulating within a relaxing environment where our focus remains on recognising the needs and desires of our residents.

Food is undoubtedly one of the highlights of life in our home. Breakfast includes a choice of freshly cooked options for those with an appetite, with most choices throughout the day being home-made; and not forgetting a glass of sherry or wine to aid the digestion.

We ensure that all food is prepared professionally by our chefs to the highest standards. Our menus offer home-cooked cuisine from around the world, reflecting the more adventurous tastes of residents who are likely to be more widely travelled than previous generations. We cater for all dietary requirements and needs and strive to provide a balanced nutritious menu that stimulates the mind and palate.

Rooms can be reserved in any of our homes at any time and we can offer continuous residence, respite stay or day care. To arrange a personal tour of our homes please contact our head office.
