# Eastleigh Nursing Care

**Our pioneering home offers a “home from home” feel whilst providing the requirements for enhanced care, dedicated care for those living with dementia and other cognitive disabilities in a sympathetic and supportive environment. We are delighted to provide an innovative lighting system that supports residents to appreciate the natural passing of time, this and has received acclaim from recognised universities as supporting residents living with dementia.**

The home boasts decidedly opulent décor; each bedroom features a superb en-suite, flat screen television, telephone and Wi-Fi connectivity. Many rooms benefit from balconies which extend the living space and provide a lovely place to sit and chat with friends or visitors. Our high standard of care is consolidated by an advanced nurse call system that ensures each resident is assisted in their care regardless of the confines of their mobility or communicative needs.

Cuisine is a highlight within our home and our resident chefs pride themselves on offering a home-made menu that accommodates everyone's personal choice. We offer a varied as well as balanced diet, where all tastes and special dietary needs are catered for. Fresh produce, where possible, is grown locally and all meals from our award winning kitchens are always thoughtfully prepared. Meals are accompanied by a glass of sherry, wine or fresh juice to aid digestion, if this is your preference, and room service is always an option for those seeking a quieter dining experience.

Our thoughtful, professional team will make every effort to provide tailored care to each individual, striving constantly to maintain and improve the sense of well being among those we support. At Eastleigh, you will always find a genuinely warm and caring welcome awaiting you, whether you are a resident or a visitor.

There are specialist bathing and shower facilities to create that feeling of spa luxury and to make sure our residents are able to look and feel their best at all times, we have a purpose built hair and beauty salon with a residential hairdresser and a visiting chiropodist. In fact, we can arrange for massage, reflexology or any alternative therapy you desire to complete the personal pampering.

Rooms can be reserved in any of our homes at any time and we can offer continuous residence, respite stay or day care. To arrange a personal tour of our homes please contact our head office.
